LETTER OF AUTHORIZATION

Date: 16/09/2026

To Whom It May Concern,

This letter serves as authorisation from HYEHOST LLC, the legitimate holder of the following RIPE-managed IPv6 address space, to confirm that:

HYEHOST-PRIVATE-CUSTOMER-US (AS47272)

is hereby authorised to originate and announce the following prefix(es) via BGP:

- 2a0f:6280:1005::/48

This authorisation is valid from the date of issuance until the relevant leased service ends or HYEHOST LLC revokes it in writing.

Routing authorisation condition:

The authorised origin is validated through the applicable HYEHOST-managed Route Origin Authorization (ROA) and Internet Routing Registry (IRR) route object(s). This letter is valid only while both the corresponding ROA and IRR authorisations remain active. If either record is removed, withdrawn, or no longer authorises the prefix and origin above, this authorisation is automatically invalid and must not be relied upon unless HYEHOST restores the required records.
